

GET A FREE  
CYLINDER HEATER\*

WORK QUICKER IN COLDER TEMPS!

## PURCHASE A PALLET (36 CANISTERS) OF JM ALL SEASON SPRAYABLE BONDING ADHESIVE AND GET A FREE CYLINDER HEATER!

Keep your All Season Adhesive operating at maximum efficiency in temperatures as low as 25° F with this cylinder heater! Offer valid for products purchased and shipped between 1/20/2020 through 3/31/2020. JM branded Power Blanket® Lite (PBL20 ) will be shipped separately.

Visit [Page 62 of the Power Blanket® Catalog](#) for details on the free cylinder heater.

As stated in the data sheet for this product (RS-7874), the acceptable ambient spray temperature range for JM All Season Sprayable Bonding Adhesive is between 25° F - 100° F. As such, we recommend customers use the cylinder heater when the ambient temperatures are in the lower end of that acceptable range. PLEASE NOTE: the cylinder heater does not expand the acceptable spray temperature ranges, but can improve product yield in colder temperatures within the acceptable temperature range.
