FOR IMMEDIATE RELEASE

KNIGHT WALL SYSTEMS APPOINTS NEW MANUFACTURER'S REPRESENTATION IN INDIANA, MICHIGAN, AND KENTUCKY

Deer Park, WA – Nov. 26, 2024 – [Knight Wall Systems](#) today announced the appointment of Roofing & Exterior Products Services (REPS) as its new manufacturer's rep group for Indiana, Michigan, and Kentucky, according to Knight's National Sales Manager, Travis Cacciatori.

Led by Bill Spencer, REPS will provide sales representation for Knight's entire line of award-winning rainscreen attachment solutions, including its flagship CI[®] System, MFI[®] System, and ThermaZee[™] products.

"Bill and his team have extensive experience in the building envelope industry with a history in the business that goes back more than 35 years," Cacciatori said. "Their knowledge and contacts will be invaluable to us, and Knight's industry-leading attachment systems should complement

their already robust product offering.”

REPS and its team of professionals represent several of the major commercial roofing, continuous building insulation, exterior products, rainscreen assembly, concrete and waterproofing manufacturers in nation. Its Roofing, Exterior, Insulation and Waterproofing Divisions work seamlessly together to help create a complete building envelope. REPS is a proud member of RAINA (Rainscreen Association in North America), IIBEC (International Institute of Building Enclosure Consultants), BEC (Building Enclosure Council), CSI (Construction Specifications Institute), IRCI (International Concrete Repair Institute, Inc.) Pittsburgh Chapter, and DesignOhio.

“The Knight Wall products are best-in-class and our Exterior Division is excited for the mutual growth of our companies,” Spencer said.

About Knight Wall Systems

[Knight Wall Systems](#) Inc., headquartered in Deer Park, Washington, is an innovator in building envelope technology. A BuildingGreen “Top-10 Green Building Product,” a Metal Construction magazine’s Readers’ Choice award-winner, and a two-time recipient of Architectural Record’s Products of the Year designations, Knight’s patented “drop-in” rainscreen and thermal isolation technologies have set new standards for building façades throughout North America.
